

## 公司简介 Introduction

上海正诚机电制造有限公司成立于1994年，是泰国正大集团独资企业，专注于农牧食品项目承接和设备供应，上海正诚是集整厂方案设计、生产工艺设计、建筑结构、土建施工、钢结构制造与安装、设备制造安装与调试、售后服务为一体的整体解决方案的提供者。

为了推动中国饲料厂、养殖场、食品厂产品质量的提高和生产效率的提升，我们依托正大集团全球视野的优势，不断引进国际前沿的理念、技术、工艺和设备，在自动化、智能化、可视化、可追溯化、生产安全、食品安全方面的经验积累，能够在满足业主个性化需求的同时，为业主创造价值。

公司成立30年来，积累了丰富的农牧食品项目的建设经验，建设了150多座饲料厂、300多座畜禽养殖场、数十座水产养殖场、1000万平米的钢结构厂房。

Shanghai Zhengcheng Electromechanical Manufacturing Co., Ltd. was established in 1994. It is a wholly-owned enterprise of the Chia Tai Group in Thailand. It focuses on project contracting and equipment supply for the agricultural, animal husbandry and food industry. A provider of overall solutions integrating construction, steel structure manufacturing and installation, equipment manufacturing, installation and commissioning, and after-sales service.

In order to promote the improvement of product quality and production efficiency of Chinese feed factories, farms and food factories, relying on the advantages of Chia Tai Group's global vision, we continue to introduce international cutting-edge concepts, technologies, processes and equipment, in the fields of automation, intelligence and visualization. Traceability, production safety, food safety experience accumulation, can create value for the owner while meeting the individual needs of the owner. Since its establishment 29 years ago, the company has accumulated rich experience in the construction of agricultural, animal husbandry and food industry projects, and has built more than 150 feed factories, more than 300 livestock and poultry farms, dozens of aquaculture farms, and 10 million square meters of steel structure workshops.

**1994** 4月20日公司正式成立，主要业务涵盖饲料厂整厂交钥匙工程及钢结构工程  
On April 20, the company was officially established. The main business covers the whole feed plant Turnkey project and steel structure project.

**2015** 控股上海鑫宝专用车辆有限公司  
Holding Shanghai xinbaiguo Special Vehicle Co., Ltd

**2016** ·获得上海市高新技术企业称号  
·按照国际项目管理程序承建的第一个EPC项目——江苏邳州15000头养殖场顺利竣工  
·Won the title of Shanghai high tech enterprise.  
·The first EPC project under taken in accordance with international project management procedures 15000 head farms in Pizhou, Jiangsu Province, was successfully completed.

**2017** ·与美国500强企业AGCO-GSI公司成立合资公司，实现欧美先进畜牧机械国产化  
·Establish a joint venture with agco-gsi, a top 500 enterprise in the United States, to realize the localization of advanced animal husbandry machinery in Europe and the United States.

**2018** ·代表饲料厂4.0国际水平的内蒙古36万吨饲料厂顺利竣工  
·成立电控研发中心，助推饲料厂、养殖场、食品厂提高自动化和智能化水平  
·The 360000 ton feed plant in Inner Mongolia, representing the international level of feed plant 4.0, was successfully completed.  
·Set up an electronic control R&D center to boost feed factories, farms and food factories to improve the level of automation and intelligence.

**2019** ·与日本FUKUDA公司合资成立上海正福食品机械工程有限公司，进军食品机械领域  
·Shanghai Zhengfu Food Machinery Engineering Co., Ltd. was jointly established with Japan Fukuda company to enter the field of food machinery

**2020** 投资建成慈溪正大畜产现代化畜禽设备生产基地，实现工厂数字化智能化转型  
Invest and build Cixi CP GSmodern livestock and poultry equipment production base to realize the digital and intelligent transformation of the factory.

**2021** 投资建成正大（中国）智能研发中心  
Invest to build CP(China) Intelligent R&D Center

## 企业优势 Business Advantage

**技术先进 Technologically Advanced**  
拥有五大研发中心及专业技术团队，与国内院校及科研院所建立产学研合作，自主开发电控系统，助力农牧食品业向数字化、智能化方向发展。  
It has five R&D centres and professional technical teams, establishes industry-academia-research cooperation with domestic schools, enterprises and scientific research institutes, independently develops the electronic control system, which helps the agriculture and animal husbandry food industry to develop in the direction of digitalisation and intelligence.

**品质保证 Quality Assurance**  
30多年来400余个饲料、养殖、水产等项目建设经验，拥有现代化的设备加工生产基地。  
More than 30 years of more than 400 feed, aquaculture, aquatic and other project construction experience, with modern equipment processing production base.

**系统管理 System Management**  
专业的项目管理团队，全面质量管理理念，从装备检验能力、过程控制能力、持续改进能力三方面确保项目的稳定运行。  
Professional project management team, total quality management concept, from the equipment inspection ability, process control ability, continuous improvement ability to ensure the stable operation of the project.

**快速交付 Rapid Delivery**  
项目全周期科学管控，供应链纵向一体化，团队24小时快速响应能力，为业主提供保质保量的短交付周期工程。  
Scientific control of the entire project cycle, vertical integration of the supply chain, and the team's 24-hour rapid response capability provide owners with short delivery cycle projects of guaranteed quality and quantity.

**服务升级 Service Upgrade**  
为客户提供个性化定制的EPC总包服务及产业资源支持。  
Provide customised EPC turnkey services and industrial resource support.

**价值创造 Value Creation**  
通过数字化技术、优化设计、科学管理、成本控制、提质增效等服务，实现良好的产业经济效益。  
Through the services of digital intelligence technology, optimised design, scientific management, cost control, quality improvement and efficiency enhancement, good industrial economic benefits are achieved.

### 资格证书 Qualification

## 饲料厂成套工程 Turn-Key Project of Feed Mill

哈尔滨6万吨反刍+12万吨畜禽饲料厂  
Harbin 60,000 tons ruminant +120,000 tons livestock and poultry feed factory

慈溪6万吨水产+12万吨畜禽饲料厂  
Cixi 60,000 tons of aquatic feed +120,000 tons of livestock and poultry feed factory

和林36万吨猪饲料厂  
Helin 360,000 tons swine feed factory

## 养猪场成套工程 Turn-Key Project of Swine Farm

阜新王府镇12000头育肥一场  
Fuxin Wangfu Town 12,000 Fattening Swine Farm

杨西6000头种猪场  
Yangxi 6,000 Swine Breeding Farm

湛江划山14000育肥十场  
Zhanjiang Geshan 14,000 Fattening Swine Farm

## 养鸡场成套工程 Turn-Key Project of Poultry Farm

山东潍坊现代食品（360万蛋鸡）全产业链项目  
Shandong Weifang 3.6 Million Layer Project

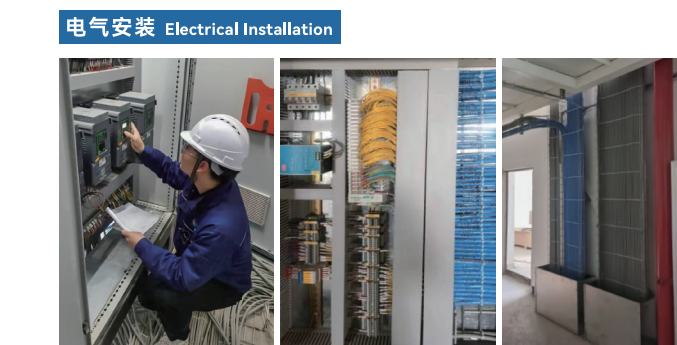

河南漯河300万蛋鸡全产业链项目  
Henan Luohe 3 Million Layer Project

吉林榆树33万只肉鸡笼养项目  
Jilin Yushu 330,000 Broiler Cage Rearing Project

## 电控产品 Electric-control Products

### 智能设备 Smart Device

### 硬件设备 Hardware

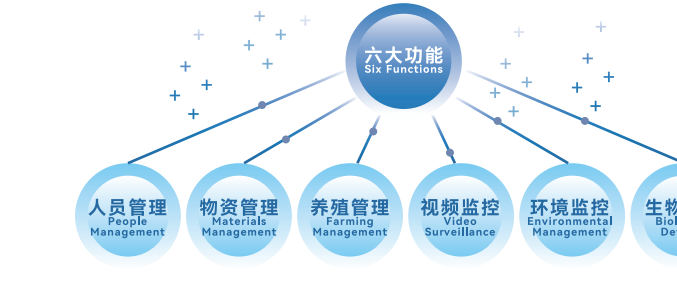

### 智能软件 Smart software

## 电控系统 Electric-control System

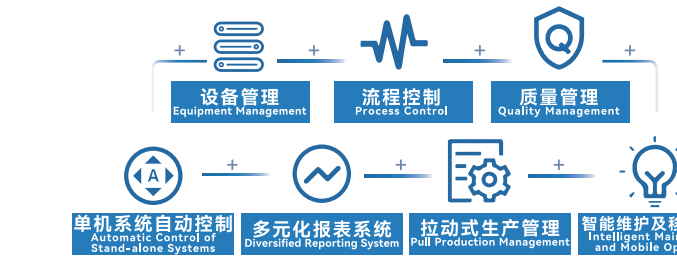

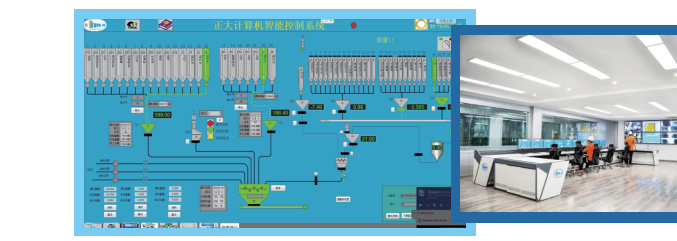

### 数字化养殖系统 Digital Farming System

采用人工智能、大数据、物联网等技术赋能养殖行业人员管理、物资管理、养殖管理、视频监控、环境监控、生物防疫六大功能，减少人力成本，提高生产效率。  
Employing artificial intelligence, big data, Internet of Things and other technologies to empower the farming industry, the six functions of personnel management, material management, farming management, video monitoring, environmental monitoring and biological epidemic prevention can reduce manpower costs and improve production efficiency.

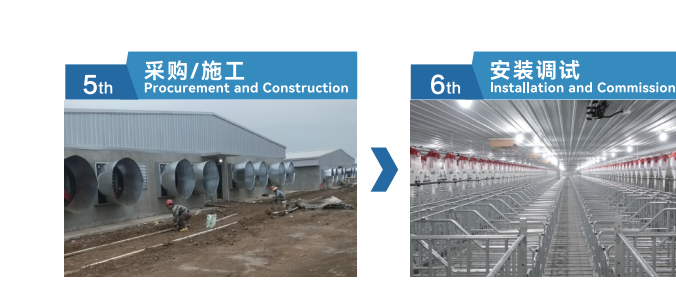

### CPS系统 CP Smart System

集自动控制与生产管理于一体，实现全流程控制、单机自动化系统控制、MES制造执行系统、拉动式生产管理、设备智能运维系统、数据分析及多元化报表系统、物联网平台管理等，大幅提高饲料厂的自动化、数字化、智能化水平，适用于水产饲料、畜禽饲料、预混料等各种生产工艺。  
Integrating automatic control and production management, it realises full-process control, single-machine automation system control, MES manufacturing execution system, pull production management, equipment intelligent operation and maintenance system, data analysis and diversified reporting system, and IoT platform management, etc., which significantly improves the automation, digitalisation and intelligence level of feed mills, and applies to a variety of production processes, such as aquatic feed, livestock and poultry feed, premix and so on.

## 项目设计、采购、施工总承包 EPC

运用设计、采购、施工、维保四位一体的管理体制对工程质量、安全、工期、造价全面负责。  
Using the four-in-one management system of design, procurement, construction and maintenance, we are fully responsible for the quality, safety, schedule and cost of the project.

Committed to becoming a leader in overall solutions for feed, Aquaculture, and food engineering

致力于成为饲料、养殖、食品工程整体解决方案的领导者

我们为饲料厂/养殖场/食品厂提供精良的成套装备和EPC交钥匙服务  
We provide excellent complete sets of equipment and EPC turnkey services for feed mills/farms/food factories

我们的数字化装备和服务, 能够帮助用户实现经营生产的高效益  
Our digital and intelligent equipment and services can help users achieve high efficiency in operation and production

我们致力于促进肉类食品行业向环境友好/资源节约方向快速良性发展  
We are committed to promoting the rapid and healthy development of the meat industry in the direction of environmental friendliness/resource conservation
